

USAMA KHAN

SENIOR FULL STACK DEVELOPER | FRONTEND & BACKEND ENGINEERING

+966 51 045 1995 | kosama685@gmail.com | github.com/kosama685

Al Khobar, Saudi Arabia | Pakistani Citizen | Transferable Iqama | Available for Interviews

PROFESSIONAL PROFILE

full stack developer based in Al Khobar, Saudi Arabia, with a transferable Iqama and 10+ years of experience building production web, mobile and enterprise software. Combines backend expertise in ASP.NET Core, C#, Laravel, PHP, Node.js and APIs with frontend expertise in React, Next.js, Angular, TypeScript, JavaScript, HTML5 and CSS3. Has delivered ERP, POS, logistics, e-commerce, WordPress, Shopify and mobile-enabled systems and also integrates modern LLM and automation services into practical business applications. Comfortable owning architecture, implementation, deployment, stakeholder communication and post-release support.

TECHNICAL SKILLS

Backend Engineering: C#, ASP.NET Core (.NET 6/8), Entity Framework Core, PHP, Laravel, CodeIgniter, Node.js, Express.js, Python, FastAPI, Flask, REST, SOAP, GraphQL, JSON/XML, microservices, MVC, OOP

Frontend & Mobile: React, Next.js, React Native, Redux Toolkit, Angular, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, AJAX, Axios, responsive and accessible UI development

Databases & Data: SQL Server, PostgreSQL, MySQL, MongoDB, Firebase, Redis, SQLite, Prisma ORM, BigQuery, data modeling, query optimization, row-level security

Cloud, DevOps & Delivery: Docker, Kubernetes, Helm, Terraform, Argo CD, GitHub Actions, GitLab CI/CD, AWS (EC2, Lambda, SageMaker), GCP (Cloud Run, GKE, Vertex AI, BigQuery), DigitalOcean, Cloudflare, WHM/cPanel

AI & Automation: LLM API integration with OpenAI, Anthropic Claude, Google Gemini, Grok, DeepSeek, OpenRouter and NVIDIA NIM; RAG pipelines, prompt engineering, multi-agent orchestration, Make.com automation, Google Apps Script

CMS & E-commerce: WordPress custom themes/plugins, WooCommerce, Elementor, WPBakery, Shopify, Shopify Plus, Liquid, CJ Dropshipping API, payment gateways including PayPal and Stripe

Observability & Messaging: Prometheus, Grafana, Mimir, Datadog, Google Cloud Monitoring, Apache Kafka, RabbitMQ, logging, monitoring and production troubleshooting

Design & Business Tools: Figma, Adobe XD, Photoshop, Illustrator, InDesign, Premiere Pro, Agile/Scrum, Jira, ServiceNow, Salesforce, business analysis, stakeholder communication

PROFESSIONAL EXPERIENCE

Full stack Developer | Fandaqah Information Technology

2023 - Present | Saudi Arabia

- Design and develop microservices-based applications with ASP.NET Core and well-defined REST APIs for reliable client and service integration.
- Apply clean architecture, dependency injection, layered design and Entity Framework Core to create modular, testable and maintainable backend services.
- Containerize applications with Docker and collaborate with frontend, QA, product and business teams to deliver production-ready features.

Full Stack Developer | Salsoft Technologies

2022 - 2023 | Karachi, Pakistan

- Built web and mobile solutions with PHP, Laravel, React Native and Firebase, covering backend APIs, application logic and responsive client interfaces.
- Designed and optimized MySQL, PostgreSQL and MongoDB data layers and integrated third-party and real-time services.

Senior Executive Web Developer | Tech Unity

2020 - 2022 | Karachi, Pakistan

- Developed custom WordPress plugins and themes, WooCommerce stores and Shopify/Shopify Plus storefronts using Liquid, Elementor and WPBakery.
- Delivered frontend and backend features with JavaScript, Angular, Laravel and CodeIgniter, including payment, Zoom/LMS and custom API integrations.
- Managed hosting and deployments across WHM/cPanel, AWS and GCP and supported junior developers and client stakeholders.

Web Developer | Soft Nation

2019 - 2020 | Karachi, Pakistan

- Built PHP applications with Laravel, CodeIgniter, MySQL, WordPress and custom REST APIs, with responsive interfaces using JavaScript, jQuery and Bootstrap.
- Integrated social and payment APIs and applied OOP, error handling, web security, version control and cloud hosting practices.

Customer Experience & Banking Operations | HBL Bank / Allied Bank

2017 - 2019 | Karachi, Pakistan

- Resolved customer issues, supported digital banking services and advised on relevant banking products in high-volume branch environments.
- Developed communication, requirement discovery and problem-solving skills that now support effective technical stakeholder collaboration.

SELECTED PROJECTS

AutoPilot Agency OS | Next.js, FastAPI, PostgreSQL, Redis, LLM APIs

Designed a multi-tenant agency operations platform with modular workflows, role-based access and AI-assisted specialist agents for content, sales and client operations.

CJ Dropshipping Storefront Platform | HTML, CSS, JavaScript, Google Apps Script, CJ API

Built e-commerce storefront workflows for product synchronization, authentication, freight calculation and order creation through a secure serverless proxy.

Logistics Tracking Platform | PHP, Google Maps API, Android Web Services

Built a delivery-tracking system that maps consignments, assigns delivery zones and calculates routes, distance and vehicle speed for dispatch operations.

Textile Order Management ERP | Custom PHP, MySQL

Developed an ERP covering billing, purchasing, sales orders, inventory, customer ledgers, quotations and store-management workflows.

FuelMyBrand ERP & Web Services | Custom PHP, Android Web Services

Delivered an ERP admin panel and service layer that captured online orders and routed work from order desk to production teams.

Nap Away E-commerce & Wallet | Custom PHP, PhoneGap, PayPal, Stripe

Built a web administration panel and mobile application with payments, a purchase-based wallet system and inventory management.

Restaurant POS & Management System | Custom PHP, Tablet Web Services

Developed POS and restaurant-management workflows with daily, monthly and annual sales reporting and tablet integration.

SmartWork Cafe Management System | Custom PHP, iOS, Web Services

Created table-side ordering and waiter-call workflows with real-time service requests powered by custom web services.

EDUCATION

Bachelor of Science in Computer Science | University of Karachi | 2018

Post-Graduate Certificate in Software Engineering | NED University | 2020

Networking Course | Alamgir Institute | 2018

English Language Course | University of Karachi | 2017

PROFESSIONAL COURSES & LEARNING

The following are course completions and professional-learning credentials supplied by the candidate. Vendor examination status should only be stated where independently verified.

Artificial Intelligence & Data Science

- AI for Managers - Microsoft & LinkedIn Learning
- AI for Leaders - Microsoft & LinkedIn Learning
- Anaconda Python for Data Science Professional - Microsoft & LinkedIn Learning
- Generative AI Skills - Microsoft & LinkedIn Learning
- Generative AI - Microsoft & LinkedIn Learning
- AI and Data Science for SQL: Beginner to Advanced - LinkedIn Learning
- Hands-On AI: Building LLM-Powered Apps - LinkedIn Learning
- What Is Generative AI - LinkedIn Learning
- Python Professional Certificate - OpenEDG

Software Development

- Full-Stack Web Developer - LinkedIn Learning
- Blockchain: Learning Solidity - LinkedIn Learning

- Build Spring Boot Apps with Kotlin - LinkedIn Learning
- Building Angular and ASP.NET Web API Apps - LinkedIn Learning
- C++ Development: Advanced, Lambda Expressions - LinkedIn Learning
- C++ Programming Professional Certificate - OpenEDG
- Full-Stack Web Applications with Rust and Leptos - LinkedIn Learning
- Full-Stack JavaScript, MongoDB, Node, and React - LinkedIn Learning
- Kotlin Essential Training - LinkedIn Learning
- Rust Web Frameworks: Actix, Rocket, Warp, Tide - LinkedIn Learning
- Creating Spring Boot Microservices - LinkedIn Learning
- Vue.js: Creating and Hosting a Full-Stack Site - LinkedIn Learning
- Make SwiftUI Playgrounds Applications - LinkedIn Learning
- SwiftData Essential Training - LinkedIn Learning

Cybersecurity & Systems

- Become an Ethical Hacker - LinkedIn Learning
- Cybersecurity - Microsoft & LinkedIn Learning
- Cert Prep: ISC2 Certified in Cybersecurity - LinkedIn Learning
- Microsoft Azure Security Technologies (AZ-500) - LinkedIn Learning course
- System Administration - Microsoft & LinkedIn Learning

Project Management & Business

- Atlassian Agile Project Management Professional - LinkedIn Learning
- Project Management - Microsoft & LinkedIn Learning
- Business Analysis - Microsoft & LinkedIn Learning
- Administrative Assistance - Microsoft & LinkedIn Learning
- Copilot for Productivity - Microsoft & LinkedIn Learning
- ServiceNow IT Leadership Professional Certificate - LinkedIn Learning

Design, Media & UX

- Adobe Illustrator Professional Certificate - LinkedIn Learning
- Adobe InDesign Professional Certificate - LinkedIn Learning
- Adobe Photoshop Professional Certificate - LinkedIn Learning
- Adobe Premiere Pro Professional Certificate - LinkedIn Learning
- Design User Experiences with Figma - LinkedIn Learning
- Custom Theme Building with Elementor Pro - LinkedIn Learning

E-commerce & Digital Marketing

- Shopify Essential Training - LinkedIn Learning
- Magento Community Edition 2 Essential Training - LinkedIn Learning
- Learning PPC with Google Ads - LinkedIn Learning
- Digital Advertising 101 - SEMrush Academy
- Social Media Marketing Professional Certificate - Hootsuite / LinkedIn Learning
- Mastering YouTube Search Trends & SEO Strategies - SEMrush Academy

Salesforce & Customer Success

- Cert Prep: Salesforce Certified Administrator - LinkedIn Learning
- Zendesk Customer Service Professional Certificate - LinkedIn Learning
- Salesforce Essential Training - LinkedIn Learning

Additional Specializations

- GitHub Professional Certificate - LinkedIn Learning
- Sustainable Tech - Microsoft & LinkedIn Learning
- Prepare for the Google Cloud Digital Leader Certification - LinkedIn Learning
- Twilio Programmable Messaging and Voice Professional Certificate - LinkedIn Learning
- Web3 Design and Security Essentials - LinkedIn Learning
